4 Sequestering 2013 DCP/ACRE Direct Payments

A Applying Sequestration

2013 DCP/ACRE direct payments will have a sequestration percentage applied to the payment amount determined after all reductions have been applied. The sequestered:

- percentage will be announced later
- amount is applied at the payment entity level
- amount is not attributed to members
- amount is reduced from the determined payment amount for the payment entity as the last step before sending the payment information to NPS.

5 Approving 2009 Through 2013 DCP/ACRE Contracts

A Entering COC Approval Date

Sequestering DCP and ACRE payments is dependent on when the COC approval date is entered for 2009 through 2013 DCP/ACRE contracts. Software modifications for payment processing are required for 2009 through 2013 DCP/ACRE contracts approved after October 1, 2013; however, modified software will **not** be available as of October 1, 2013.

As of October 1, 2013, software allowing the entry of the COC approval date for 2009 through 2013 DCP/ACRE contracts will be temporarily disabled until modified payment software is available.

Therefore, it is imperative that DCP/ACRE contracts are approved before October 1, 2013, to ensure that payments are processed timely.

Note: Normal processing will resume for approving 2009 through 2013 DCP/ACRE contracts after modified payment software is released.
